

VINIQUE WINE LIST 2015

The following pages contain only a few famous names from the wine world, however, the majority of the list has been built with an eye towards small, artisanal producers and organic discovery wines that you can't find on your everyday wine list. Almost all of these wines are unique to us here in Switzerland and due to the nature of the winemakers we are seeking out, we only carry a small range at any time. The selection represents less than 10% of wineries researched and visited and will continually change as we make new discoveries.

What this means for you is that this complete list comes from small, independent, owner-run estates that are able to demonstrate a clear passion for their profession and a level of technical expertise in their winemaking to deliver superior quality in the bottle. Most are highly rated by wine critics, such as Robert Parker, or José Peñín and most have very limited production runs. Because these are tiny estates, you are not paying a "Brand premium" and therefore the quality/price ratio is extremely high. Finally, though it is not an absolute selection criterion on our part, we find that in their pursuit of excellence, almost all of the wines are organic and a number of wineries are also biodynamic in their farming.

We hope you enjoy the discovery of these wines as we have.

Tristan and Ellen

* Due to the small quantities available on many of these wines, they can sell out at short notice. We apologise in advance if a wine you wish to order is no longer in stock.

Abbreviations for reviews and awards

RP	Robert Parker
JP	José Peñín Guide
JR	Jancis Robinson
WS	Wine Spectator
